RESPONSE TO OFFICE ACTION

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Office Action mailed December 9, 1999, please consider the following remarks.

REMARKS

The Examiner has subjected this application to restriction under 35 U.S.C. 121 and made the requirement final. Reconsideration is requested. It is submitted that the process and article claims should properly be examined in a single application. The Commissioner may statutorily require the election of inventions "If two or more independent and distinct inventions are claimed in one application." In the instant case the Examiner is alleging that the inventions of groups one and two are distinct, although absolutely no showing of such distinctness has been made. 37 C.F.R. 1.141(b) specifically permits process and article
